STATION PLAZA PLAN WINS IN CONGRESS

\$500,000 Yearly to Be Spent on Capitol Park Extension.

TAKE CHEAPEST LAND FIRST

Compromise Agreement Reached or Disputed Senate Provision in Sundry Civil Bill-Will Require Six or Seven Years for the Acquisition of the Entire Tract of Land,

All that property lying between Union Station and the Capitol grounds will be converted into a park, to be a part of the Capitel grounds.

After a long wrangle on the sundry civil appropriation bill in conference, the conferees yesterday reached a compromise agreement on the amendment of Senator Wetmore, appropriating \$3,800,000 for the purchase of the necessary squares and parcels of land between the depot and the Capitol.

Instead of making a straight-out appropriation of the entire amount required for the purchase of all this property, the conferees agreed upon a provision autherizing the purchase of the land in yearly installments, \$500,000 to be devoted to the purpose each year.

It is estimated that at this rate, unless at some later date Congress should deof the land in an entirety, it will require about six or seven years for the acquisition of all the property.

of Pennsylvania avenue, to afford a di- what. reet approach to the station from that

It is provided that in making the annual purchases of land for the park land offered at the lowest rates shall be first purchased by the government. This, it is thought, will have a tendency to preboosting of land values in the designated area as a result of the determination of Congress to provide a beau-tiful park approach to Union Station. The land that is held highest will be the last to be taken by the government.

CONGRESS INQUIRY ASKED.

LOOKING PLEASANT.

I visited the sharp who makes artistic photographs and said: "I wish you'd drop all other fakes, and make a picture of my head." He pushed some screens to let in light, and I was to a chair assigned, a bughouse palace at my right, a canvas thundercloud behind. He screwed my dome of thought awry, and gave my diapliragm a squeeze, and then I heard him briskly cry: "All ready, now-look pleasant, please!" My face had worn a look of gloom, but when I heard his cheery call, I sprung a smile that filled the room, and dimmed the gaslights in the hall. And when the photograph was made, that smile was placed on record there; the years may pass, it will not fade, and folks who see it will declare: "He must have been a pleasant jay! He smiled profusely and with vim; the world would be less bleak and gray, if there were more glad guys like him!" I keep the picture on the wall, where I can view it day by day, and when some evil things befall, it helps me drive the blues away. "I looked as glad as that one time." I mutter, as I toil away; "and it would be a beastly crime to look less happy any day." A scowling face will gain no friends, nor banish woe, nor heal disease; so, when a cloud of grief descends, say to yourself: "Look pleasant, please!" WALT MASON. (Copyright, 1910, by George Matthew Adams.)

terest on deposits.

The system is designed to draw out the money which is now hoarded and to encourage saving among the poor. It has been the contention of the President and other advocates of the bill that the most of the postal savings bank deposits will consist of money that at present never reaches the banks. On this ground they have argued it would not interfere with the present banking business of the country, but would, on the other hand, araw out millions of dollars which may

Both State and national banks, under the new law, are named as depositories of the postal savings funds. These banks are required to put up public securities— State, county, and municipal bonds—as security for the deposits. Funds in Securities.

One of the most interesting features of the legislation relates to the authorization to invest the postal savings bank funds in government securities. government will be able to take up \$100,-000,000 or more Panama bonds that have been authorized but not issued. These bonds have not been issued because it was generally conceded they would have to pay an interest rate of at least 21-2

The attempt to float them would have resulted in sending the millions of government 2 per cent bonds, now held by national banks, probably under par. For First Lieut. LEONARD S.
